CULTURAL SIGNIFICANCE OF CARD LEVELS

The rightful place & purpose in nature of all animals is central to the Origin Beliefs of the Diné (The People); also known as the Navajo.

As a guardian of one of the four original clans, the mountain lion is considered sacred by all Diné.

Our Cougar tier card is where all Atsá members begin their introduction to the best Players Club in Arizona & New Mexico. With it, gain access to instant rewards & casino promotions.

The badger played a pivotal role in the first game of chance, which the animals played deciding night & day.

After earning 777 tier points, the new Badger tier card provides access to discounts on food & retail, as well as access to special birthday, veteran & other promotions.

Possessing great power & strength, the bear is one of the most important animals in Diné culture.

Bear level patrons strengthen their earning power with a permanent 2X point multiplier. With bigger discounts & no downgrades, this card is already one of the strongest around.

Perhaps the most sacred animal in Diné culture, the Eagle's life stages are used as names of the months.

Soaring above the other tier cards is our Eagle status. Enjoy a number of exclusive benefits, VIP access & a point multiplier elevated to 3X every day.
